

SCIENCE INTERNSHIP PROGRAM

About

The Science Internship Program (SIP) offers high school students the opportunity to spend their summer working on authentic open-ended research projects in science, engineering, social sciences, humanities, and art under the mentorship of UCSC researchers.

Important Dates

- March 1: application opens
- March 31: application deadline
- June 17 through August 17: SIP 2024 program (2 weeks of research preparation and 8 weeks of research)

More Information

- SIP is a 10-week program for advanced science students
- High school students work in groups of three or more under the close guidance of their research mentors.

SIP Alumni Have:

- Worked collaboratively with other researchers
- Sharpened critical thinking skills
- Attended professional conferences
- Submitted articles to scientific journals
- Submitted papers to science competitions

“

GREAT PROFESSORS, PROFESSIONAL PROJECTS ADDRESSING PROFESSIONAL QUESTIONS THAT HAVE ACTUAL IMPACTS IN THE WORLD; WE'RE NOT JUST DOING EXPERIMENTS, THIS IS REAL RESEARCH."
—2014 SIP INTERN
